INDEX TO VOLUME XXI

Anderson, J. M., Boundary properties of analytic functions with gap power series 247

Backhouse, N. B., Projective representations of space groups, II: Factor systems 277

—— and **Bradley, C. J.,** Projective representations of space groups, I: Translation groups 203

Bhagat, Bikan, A spectral theorem for a pair of second-order singular differential equations 487

Bradley, C. J., *see* **Backhouse, N. B.**

Bruckner, A. M., Density-preserving homeomorphisms and a theorem of Maximoff 337

Bryant, J. L., and **Seebeck, C. L., III,** Locally nice embeddings in codimension three 265

Cantrell, J. C., and **Lacher, R. C.,** Some local flatness criteria for low codimensional submanifolds 129

Chen, Wai-Kai, Graph-theoretic considerations on the invariance and mutual relations of the determinants of the generalized network matrices and their generalized cofactors 459

Cochran, D. S., and **Crowell, R. H.,** $H_2(G')$ for tamely embedded graphs 25

Crowell, R. H., *see* **Cochran, D. S.**

Dunnage, J. E. A., The number of real zeros of a class of random algebraic polynomials (II) 309

Edelstein, M., A note on nearest points 403

Evans, W. D., The Dirac equations with a spherically symmetrical scalar potential 89

—— A non-self-adjoint differential operator in $L^2[a, b)$ . . 371

Galambos, J., The ergodic properties of the denominators in the Oppenheim expansion of real numbers into infinite series of rationals 177

Gilbert, W. J., H-spaces and weak cocategory 407

Gollwitzer, Herman E., On the non-oscillatory behaviour of a second-order linear equation 125

Gray, B., and **Hoffman, P.,** Divisibility of K-theory operations 151

Heatherley, H. E., and **Malone, J. J., Jr.,** Some near-ring embeddings (II) 445

Hirst, K. E., A problem in the fractional dimension theory of continued fractions 29

Hoffman, P., *see* **Gray, B.**

Kirby, D., On Zariski's compactness theorem for the space of valuation rings 435

—— and **Mehran, H. A.,** Homomorphisms and the space of valuation modules 439

Krätzel, Ekkehard, Die maximale Ordnung der Anzahl der wesentlich verschiedenen abelschen Gruppen n-ter Ordnung . 273

Kuroda, S. T., On the Hölder continuity of an integral involving Bessel functions 71
Kuttner, B., and **Maddox, I. J.**, Strong Cesàro summability factors 37
Lacher, R. C., *see* **Cantrell, J. C.**
Lakin, A., On the Saalschützian ${}_4F_3$ 243
Liu, Ming-Chit, On the fractional parts of θn^k and ϕn^k . . 481
London, R., Note on a lemma of Rosenbloom 67
Maddox, I. J., *see* **Kuttner, B.**
Maki, Daniel P., On the true interval of orthogonality for orthogonal polynomials 61
Malone, J. J., Jr., *see* **Heatherley, H. E.**
Maxson, Carlton J., On the construction of finite local near-rings (I): On non-cyclic abelian p-groups 449
Mehran, H. A., *see* **Kirby, D.**
Mercer, A. McD., A uniqueness theorem for a class of Bessel function expansions 83
Munn, W. D., Fundamental inverse semigroups 157
Pitts, C. G. C., Simplified asymptotic approximations to solutions of a second-order differential equation 223
—— An equiconvergence result of eigenfunction expansions for a positive increasing potential function 357
Pleasants, P. A. B., A sum related to the distribution modulo 1 of sets of real numbers 321
Ray, N., and **Switzer, R. M.**, On $SU \times SU$-bordism . . . 137
Scott, G. P., A note on piecewise-linear immersions . . . 257
Seebeck, C. L., III, *see* **Bryant, J. L.**
Segal, Graeme, Fredholm complexes 385
Sharp, R. Y., Local cohomology theory in commutative algebra . 425
Shaw, Ronald, The subgroup structure of the homogeneous Lorentz group 101
Swarup, G. Ananda, Some properties of 3-manifolds with boundaries 1
Switzer, R. M., *see* **Ray, N.**
Thwaites, G. N., On finite groups having a maximal subgroup isomorphic to $A_5 \times Z_3$ 417
Todd, J. A., Abstract definitions for the Mathieu groups . . 421
Vaughan-Lee, M. R., Abelian by nilpotent varieties . . . 193
—— Varieties of Lie algebras 297
Vincent-Smith, G. F., and **Wright, J. D. Maitland**, Ergodic Stone-algebra-valued measures 349
Williamson, Jack, Remarks on the maximum modulus of an entire function with negative zeros 497
Wright, D. J., On the uniqueness of a definition of multiplicity . 171
Wright, J. D. Maitland, *see* **Vincent-Smith, G. F.**
